

Additional instructions for filling out the enclosed nitrogen management plan template:

Example 1: A Single Nitrogen Management Plan (NMP) “Management Unit”

All enrolled fields/parcels have the same NMP

(Top portion of NMP Template)

4. APN (s)	5. Field(s) ID	Acres
XXX-XXX-001	Home	10
XXX-XXX-002	River	5

Example 2: Multiple Nitrogen Management Plan (NMP) “Management Unit”

The fields/parcels have different NMPs due to different crops, amounts of nitrogen applied and/or types of nitrogen applied. These fields are managed differently.

1. Make copies of page 4 and fill in this information at the top:
2. Assign a name/label to each of your NMP Reports that will be practical for your records. This name/label is called your NMP Management Unit. Examples include, NMP-Home or NMP-1 [Any name of your choice] that will help identify which report is being referred to.

4. APN (s)	5. Field(s) ID	Acres
XXX-XXX-001	Home	10

NMP Management Unit =
NMP-Home

4. APN (s)	5. Field(s) ID	Acres
XXX-XXX-002	River	5

NMP Management Unit =
NMP-River
